Senior Researcher ◆ Comparative Behavioral Ecology Group ◆ Email ◆ Website ◆ US Citizen Department of Human Behavior, Ecology and Culture ◆ Max Planck Institute for Evolutionary Anthropology

RESEARCH SUMMARY: I aim to resolve fundamental questions about behavioral flexibility in relation to rapid geographic range expansions using field and lab experiments, and to conduct verifiable research openly and ethically.

EXPERIENCE AND EDUCATION

- 2018- Senior Researcher, Department of Human Behavior, Ecology and Culture, Max Planck Institute for Evolutionary Anthropology
 - Investigating how behavioral flexibility works and whether it is a mechanism for surviving in new environments in species that are rapidly expanding their ranges: great-tailed grackles and humans.
- 2015-2018 Leverhulme Early Career Research Fellow, Department of Zoology, University of Cambridge and Bye Fellow, Murray Edwards College (2016-2018)
 - Conducted the first study on the heritability of endocranial volume (a brain size proxy) in a wild mammal
 - Discovered that endocranial volume is heritable and associated with female lifetime reproductive success and longevity, but not fecundity, in 1314 red deer
 - Results confirm some long-standing, previously untested assumptions about brain size variation and show that some cross-species hypotheses hold within-species
- 2012-2015 Junior Research Fellow, SAGE Center for the Study of the Mind, University of California Santa Barbara
 - Discovered that New Caledonian crows do not learn by imitating; therefore, I suggested a new pathway for the evolution of cumulative technological culture
 - Conducted the first cognitive tests on great-tailed grackles, finding that, contrary to predictions, their behavioral flexibility is similar to that of crows despite their smaller relative brain size and lack of anecdotal foraging innovations
 - Showed that behavioral flexibility is independent from problem solving, innovativeness, and other behaviors such as neophobia
- 2008-2012 **PhD** Experimental Psychology, University of Cambridge (with Prof Nicola Clayton) and Murray Edwards College
 - Investigated the sociality, ontogeny, and function of corvid (birds in the crow family) postconflict affiliation, finding that even the least social species studied so far uses social support
 - Developed new methods to detect postconflict affiliation in strongly bonded individuals
- 2004-2008 Research Assistant at the University of Washington, Stanford University, University of Arizona, and Washington State Department of Natural Resources
- $2002\text{-}2004 \qquad \textbf{BS} \text{ Biology, The Evergreen State College, WA, USA (with Prof John Longino)}$
 - Discovered that adult male coatis play with juveniles rather than predate them, which makes them an excellent model for studying the mechanisms of infanticide
- 1999-2002 AA Degree in Biology and Drama, Skagit Valley College, WA, USA

SELECTED GRANTS (see www.CorinaLogan.com for full list)			
2017	Shuttleworth Foundation Flash Grant	\$5,000	
	Funded the #BulliedIntoBadScience campaign		
2015	Cambridge Graduate School of Life Sciences Researcher Development G	rants £718	
	Funded an 'Exercise your interview skills' workshop for PhD students and postdocs		
2015-2018	Leverhulme Early Career Fellowship/Newton Trust salary + research funds	£123,000	
2014	University of California Santa Barbara Open Access Pilot Fund Program	£857	
	Covered publication fees for Logan et al. (2014) in PLoS ONE		
2012-2014	National Geographic Society/Waitt Grants Program	£9,000	
	Funded the field research on New Caledonian crows and great-tailed grackles		
2012-2015	Junior Research Fellowship, SAGE Center salary + research funds	£91,115	
2010-2011	Cambridge Philosophical Society Travel Grants (conferences)	£685	
2009-2011	Gates Cambridge Trust Research Grants (conferences)	£2,111	
2009-2011	Murray Edwards College Research and Travel Grants (conferences)	£895	
2008-2011	Murray Edwards College International Bursary	£3,000	
2008-2011	Gates Cambridge Scholarship (awarded to top 5% of 800 applicants)	£75,000	
	Funded my PhD fees, living costs, and stipend at the University of Cambridge		

SELECTED AWARDS (see www.CorinaLogan.com for full list)				
2016-2018	Post-doctoral Bye Fellow, Murray Edwards College, University of Cambrid	lge		
2016	Learning & Behavior Best Article Award	£761		
2011	Best Talk (out of 12), Murray Edwards College Graduate Symposium	£50		
2009	Science Writing Prize, Assoc. for the Study of Anim Behav & New Scientist	£1,000		

Curriculum Vitae 4 of 7

Senior Researcher ◆ Comparative Behavioral Ecology Group ◆ Email ◆ Website ◆ US Citizen Department of Human Behavior, Ecology and Culture ◆ Max Planck Institute for Evolutionary Anthropology

2009 2nd prize Best Student Talk (out of 50), International Ethological Congress £40 2002 Skagit Valley College: graduated with high honors and the President's Medal (top 1.8%), grades (GPA): 3.91/4.00

SELECTED | INVITED TALKS (see www.CorinaLogan.com for full list)

- 2019 Zoology, Charles University, Prague; Workshop: Future of registered reports, Center for Open Science, London; Keynote: Open Science Day, Max Planck Institute for Human Cognition, Leipzig; eScience Institute, University of Washington; Open Access Ambassadors, Max Planck Society, Berlin
- 2018 Biology, New Mexico State University; Biology, University of New Mexico; Symposium speaker: The State of Peer Review, Joint Statistical Meetings, Vancouver, BC; Keynote: Munin Conference, Tromso, Norway; Todos seminar speaker, The Arctic University of Norway, Tromso, Norway
- 2017 Evolution of Social Complexity, Arizona State University; eLife; Archbold Research Station, FL;
 Zoology, Office of Scholarly Communication, Graduate Union, University of Cambridge;
 Max Planck Institute for Evolutionary Anthropology; OpenCon; Biology, University of York
- 2016 Animal & Environmental Biology, Anglia Ruskin University, UK; Centre National de la Recherche Scientifique, France; Zoology, Wolfson College, Zoology Postdocs, Open Policy, University of Cambridge; Zoology, Stockholm University; Leverhulme Trust Board meeting, London
- 2015 Biology, University of St Andrews; Center for Behavior, Evolution, and Culture, UCLA; Zoology, History and Philosophy of Science, University of Cambridge
- 2014 Biology, Washington University; Psychology, University of Washington; Santa Barbara City College; Hastings Natural History Reserve; Psychology, University of California Santa Barbara (UCSB; March and May); Laboratory of Neuroendocrinology, UCLA; Ecology, Evolution and Marine Biology, UCSB
- 2013 Psychology, University of Washington; National Center for Ecological Analysis and Synthesis, UCSB
- 2012 Psychology, UCSB; University of Edinburgh
- 2011 Sub-dept of Animal Behaviour, University of Cambridge; Biology, University of Washington; Behavioural Ecology, University of Neuchâtel, Switzerland

TEACHING AND SUPERVISION

- Workshop: How to implement an open and transparent workflow for researchers at the Max Planck Institute for Evolutionary Anthropology (2019)
- How to improve the value of your research. Module 1: Open Principles, Open Science MOOC (2019)
- Designed and taught *Neuroethology: The neural basis of adaptive behaviour* for final year undergraduates in Zoology at Cambridge (3 lectures; 2016).
- Co-designed and taught graduate seminars in Psychological and Brain Sciences at UCSB: Interdisciplinary Approaches to Brains and Behavior (2013) and Behavioral science: are you doing it wrong? (2014). Course material was adapted to student interests throughout the term.
- Developed and delivered a writing workshop for final year students at Cambridge (2009, 2011, 2016).
- Guest lecturer since 2012: Neuroethology (3 lectures) at the University of Cambridge; Behavioral Ecology (1 lecture) at Anglia Ruskin University; Ethology and Behavioral Ecology (3 lectures), Social Psychology of Close Relationships (1 lecture) at UCSB; and Methods in Field Biology (1 lab) and Seminars in Biology (1 lecture) at Santa Barbara City College.

• Committee member for five PhD students at Cambridge, Univ. of Washington, and Max Planck.

Curriculum Vitae 5 of 7

Senior Researcher ◆ Comparative Behavioral Ecology Group ◆ Email ◆ Website ◆ US Citizen Department of Human Behavior, Ecology and Culture ◆ Max Planck Institute for Evolutionary Anthropology

- Supervised 37 undergraduate and 4 high school research assistants in the US and UK (since 2009). Advised in how to give presentations, and apply for grants and PhD programs.
- Tutored small groups of undergraduates in *Behaviour* and *Neuroethology* at Cambridge (~60 students; 2009, 2011, 2016).
- Marked critical reviews, literature reviews, and research project reports for final year undergraduates at Cambridge (~25; since 2011).
- Assisted in conducting lab practicals for ~500 undergraduates in *Evolution and Behaviour* and marked ~15% of their exams at Cambridge (2009-2011).

CONFERENCE PRESENTATIONS

- 2018 Is behavioural flexibility evidence of cognitive complexity? LeadNet, Berlin [poster]
- 2017 Is behavioural flexibility evidence of cognitive complexity? *International Conference on Comparative Cognition*, Melbourne Beach, Florida
- 2016 Endocranial volume is heritable and associated with fitness in deer. *International Society for Behavioral Ecology*, Exeter [poster]
- 2016 Behavioral flexibility in an invasive bird is independent of other behaviors. *European Conference on Behavioural Biology*, Vienna, Austria
 Are invasive species behaviorally flexible? *Ethology*, Göttingen, Germany.
- 2015 Does innovation frequency indicate complex cognition? Behaviour, Cairns, Australia. How New Caledonian crows solve novel foraging problems and what it means for cumulative culture. ASAB Winter Meeting, London, UK
- 2013 Formalizing a broad post-conflict affiliation hypothesis. At a symposium I organized: *Post-conflict affiliation: applications for conflict management in humans. Behaviour*, Newcastle, UK
- 2011 The sociality and ontogeny of corvid postconflict affiliation. Behaviour, Bloomington, US
- 2010 Does social support reduce stress in corvids? *International Society for Behavioral Ecology*, Perth, Australia
- 2009 The evolution and ontogeny of postconflict third-party affiliation in corvids. *International Ethological Congress*, Rennes, France

LEADERSHIP (see www.CorinaLogan.com for full list)

Peer reviewer: 30 reviews at 17 journals (details at my website)

- **Editor:** Associate Editor for *Royal Society Open Science* (2016-2019), Editorial Board member for *Animal Behavior and Cognition* (2017-), Managing Board member and Recommender at *Peer Community in Ecology* (2018-)
- **Public talks:** Open Science MOOC: Open Principles Module, *eLife* early career researcher webinar, Aiming High Conference and mentor for Networking Events at Murray Edwards College, Big Game Night at the Cambridge Festival of Ideas, Ask Me Anything on PLoS Science, The Naked Scientists, Audubon Society, Santa Barbara Zoo
- **Organizer:** Peer Community In talks at MPI EVA; Co-organized Max Planck Institute Innovators workshop at MPI EVA (2019); ran "Bursting the Academic Bubble" roundtable at MPI EVA; Conducted a Workplace Culture survey and workshops in the Department of Zoology at Cambridge to contribute to the Collaborating with Men research project at Murray Edwards College (2018); Early career researcher workshop on Moving brain size forward, Postdoc Research Convenor for Murray Edwards College, Journals Coordination Scheme Working Group and School of Biological Sciences Consultative Committee (2017); facilitating a shift to ethical scientific publishing; co-organizer, Zoology Tea Talk seminar; OpenConCam member (since

Curriculum Vitae 6 of 7

Senior Researcher ◆ Comparative Behavioral Ecology Group ◆ Email ◆ Website ◆ US Citizen Department of Human Behavior, Ecology and Culture ◆ Max Planck Institute for Evolutionary Anthropology

2016); implemented Cambridge-wide *interview workshops*; co-organized two *Workshops* (2013 & 2014); organized *symposium* at Behaviour 2013

Curriculum Vitae 7 of 7
